MERIDIAN® 5000 SERIES What's in a number? A lot when it's the 5000 Series. First, there's the metal, which makes it strong and durable. To prove it, we back the 5000 Series with another number: the 12 years of our warranty. Then, there's the versatility of the 5000 Series, so as you grow, you can easily add new pieces.

Chairs starting at **\$605**

AERON® CHAIRS This office chair has a look so distinctive that it's probably the only one people can identify by name. It adapts to all sizes and shapes and all the motions you go through every day while seated. That makes for healthy comfort and balanced body support.

Chairs starting at **\$483**

MIRRA® CHAIRS This chair is a happy union of seemingly incompatible concepts: More support and less material. High performance and attractive price. Fewer adjustments and better fit. Central to its comfort is the one-piece, frameless backrest pierced with geometric shapes to create flex zones to support you naturally.

Chairs starting at **\$408**

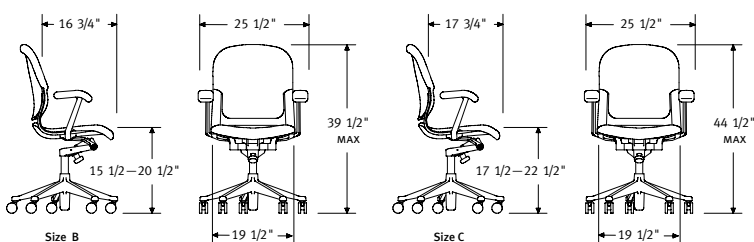

CELLE® CHAIRS It's name is pronounced "SELL-uh." In the language of office work, that translates into "affordable, sophisticated, supportive work chair." A big feature is the chair's cells and connecting loops. They're engineered to provide the perfect flex map for supporting your body.

Chairs starting at **\$448**

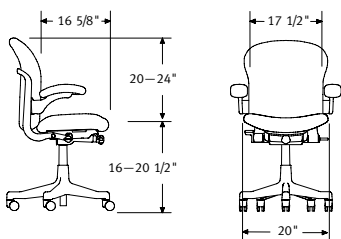

EQUA 2® CHAIRS This is truly an egalitarian foam-and-fabric chair designed to provide equal ergonomics for everyone. It provides quick response to your movements. Seat and back flex separately, and a tilt mechanism maintains your natural body motion. Adjustments that fine-tune the fit are simple and easy to use.

Chairs starting at **\$370**

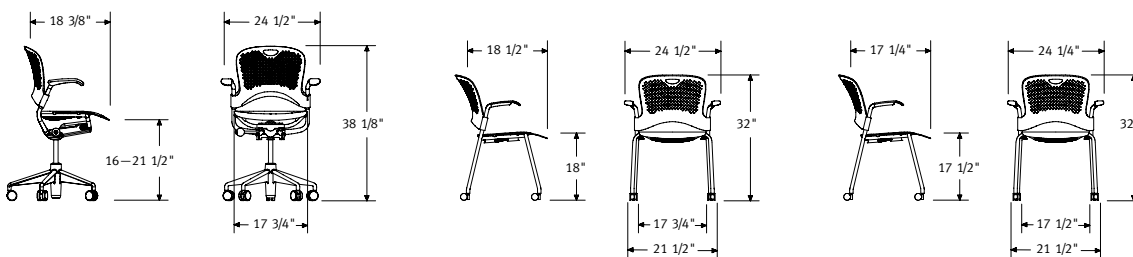

REACTION® CHAIRS This foam-and-fabric chair provides fluid movement and easy adjustments for active workers, namely you. The tilt mechanism synchronizes the seat and back movement, so you can recline and move forward again easily. That makes Reaction a lively, responsive office chair at a great price.

Stacking chairs starting at **\$160**
Multipurpose chairs starting at **\$405**

CAPER® CHAIRS A caper is a light-hearted leap. Thus, Caper—a family of nimble, stylish chairs. They're lightweight, portable, stackable, movable, so your people can move them around as they need to. They are great for working (task version) and for guest seating (4-leg model).
